

WINTER

Bright Winter

Cool-neutral, mid to deep, and very clear. High contrast is correct here, and pure white and true black are genuinely yours.

Also called Clear Winter.

Your white and your dark

Best white
Optic White

Best white for you, and one of very few seasons that can say so.

Best dark
True Black

Your best dark neutral – and here that really is black.

Colours to keep away from your face

Harder next to your face – dusty, greyed or earthy against clear cool colouring. Lower down, or as a small accent, they can still work.

Dusty Rose Beige

Muddied pink puts a film over a face built on clarity.

Muted Sage

Greyed warm green; nothing in you answers it.

Camel Beige

Golden neutral. Wear Cool Grey.

Salmon Peach

Warm and soft – it differs from your colouring on two counts.

Dusty Lavender Grey

Your violet is True Violet; this is its ghost.

Stone Taupe

Warm mid grey is the one neutral that flattens you.

Metals and stones

Metals: Silver, White gold

Yellow gold reads brassy next to blue-based skin. Rose gold is the one warm metal that still works.

Stones: Sapphire, Emerald, Ruby, Clear quartz

Cloudy or heavily included stones look dull beside clear colouring – the stone should have some light in it.
