

WINTER

Deep Winter

Cool, deep and slightly muted. Depth carries the palette; the muting only keeps it from becoming a Bright Winter.

Also called Dark Winter.

Your white and your dark

Best white
Cool Cream White

Best white for you. A shade off optic, which suits the muting.

Best dark
Soft Black

Use instead of true black – a hair softer, and it shows.

Colours to keep away from your face

Harder next to your face – warm, golden or earthy against cool deep colouring. Lower down, or as a small accent, they can still work.

Pumpkin Orange

Warm and bright. Nothing in a deep cool face answers it.

Camel Gold

The warm neutral that makes you look tired.

Moss Yellow-Green

Yellow-green turns your skin sallow.

Peach Cream

A warm pastel simply vanishes against your depth.

Coral Salmon

Orange-pink. Your pink is Antique Rose Deep.

Warm Beige Sand

Golden beige. Wear Silver Ash.

Metals and stones

Metals: Brushed silver, Pewter

Yellow gold reads brassy next to blue-based skin. Rose gold is the one warm metal that still works.

Stones: Moonstone, Rose quartz, Aquamarine, Iolite

Vivid, glassy stones overpower soft colouring. Choose the milkier version of the same stone.
