

SPRING

Light Spring

Warm, light and gently muted. Spring is defined by clarity, so nothing here is dusty – it is Light Spring with the volume down, not Soft Autumn.

Your white and your dark

Best white
Warm Ivory

Best white for you. Optic white looks blue against this skin.

Best dark
Cocoa Bark

Use instead of black. This is your dark neutral.

Colours to keep away from your face

Harder next to your face – cool, icy or blackened next to warm, light colouring. Lower down, or as a small accent, they can still work.

True Black
Flattens a light warm face. Wear Cocoa Bark.

Optic White
Reads blue on you. Wear Warm Ivory.

Oxblood Burgundy
Blue-based and heavy; it ages the whole outfit.

Gunmetal Charcoal
Cold grey drains the warmth out of your skin.

Blackened Pine
Too dense. Your green is Fresh Leaf.

Cool Fuchsia
Blue-pink. It shouts over a light palette.

Metals and stones

Metals: Rose gold, Antiqued brass

Bright silver sits cold against golden skin. If you like a pale metal, choose a warm-toned pewter.

Stones: Amber, Jade, Smoky quartz, Carnelian

Vivid, glassy stones overpower soft colouring. Choose the milkier version of the same stone.
