

SUMMER

Light Summer

Cool, light and soft. Low contrast throughout – the palette works by staying close together, not by opposing itself.

Your white and your dark

Best white
Soft White
Best white for you. Soft white, not optic white.

Best dark
Charcoal Slate
Use instead of black. Your best dark neutral.

Colours to keep away from your face

Harder next to your face – warm, golden or earthy against cool light colouring. Lower down, or as a small accent, they can still work.

True Black
Too heavy for a light season. Wear Charcoal Slate.

Optic White
Harder than your skin. Wear Soft White.

Orange Rust
Warm earth pulls yellow into your face.

Tomato Red
Orange-red. Your red is Rose Petal deepened, not this.

Warm Camel
Golden beige is the single worst neutral for you.

Vivid Chartreuse
Acid yellow-green. Your yellow is Soft Lemon.

Metals and stones

Metals: Brushed silver, Pewter

Yellow gold reads brassy next to blue-based skin. Rose gold is the one warm metal that still works.

Stones: Moonstone, Rose quartz, Aquamarine, Iolite

Vivid, glassy stones overpower soft colouring. Choose the milkier version of the same stone.
