

Soft Summer

Cool, mid-toned and muted. Everything is slightly greyed, and the palette holds together because nothing in it is louder than anything else.

Also called Muted Summer.

Your white and your dark

Best white
Cool Soft White

Best white for you. Soft, slightly warmed grey-white.

Best dark
Soft Charcoal

Use instead of black. Your best dark neutral.

Colours to keep away from your face

Harder next to your face – warm or over-clear against cool muted colouring. Lower down, or as a small accent, they can still work.

True Black

Harder than anything in your own colouring. Wear Soft Charcoal.

Optic White

Too bright a contrast. Wear Cool Soft White.

Bright Tangerine

Warm and clear – it differs from your colouring on two counts.

Copper Penny

Metallic warm brown pulls orange into your skin.

Vivid Chartreuse Green

Clear acid green. Your green is Sage Teal.

Electric Fuchsia

Over-saturated; it wears you rather than the other way round.

Metals and stones

Metals: Brushed silver, Pewter

Yellow gold reads brassy next to blue-based skin. Rose gold is the one warm metal that still works.

Stones: Moonstone, Rose quartz, Aquamarine, Iolite

Vivid, glassy stones overpower soft colouring. Choose the milkier version of the same stone.
