

AUTUMN

True Autumn

Warm, deep and rich. Muted, but never dull – these are spice and metal colours, not dust.

Also called Warm Autumn.

Your white and your dark

Best white
Warm Ivory Cream
Best white for you. Cream, never chalk.

Best dark
Dark Warm Brown
Use instead of black. Your best dark neutral.

Colours to keep away from your face

Harder next to your face – cold, icy or synthetic against warm deep colouring. Lower down, or as a small accent, they can still work.

True Black
Drains the warmth out. Wear Dark Warm Brown.

Stark White
Too cold at the neckline. Wear Warm Ivory Cream.

Cool Lavender
A cold pastel has nothing to hold on to here.

Electric Magenta
Synthetic and cold; it fights every spice tone you own.

Bright Kelly Green
Blue-green. Your greens are Forest Olive and Deep Teal.

Silver Grey
Cold metal grey next to warm skin reads as grubby.

Metals and stones

Metals: Rose gold, Antiqued brass

Bright silver sits cold against golden skin. If you like a pale metal, choose a warm-toned pewter.

Stones: Amber, Jade, Smoky quartz, Carnelian

Vivid, glassy stones overpower soft colouring. Choose the milkier version of the same stone.
