Your white and your dark

Best white
Ivory Silk

Best white for you. Warm and soft, never chalky.

Best dark
Espresso Bean

Use instead of black. Your best dark.

Colours to keep away from your face

Harder next to your face – cool, dusty or blackened against clear warm colouring. Lower down, or as a small accent, they can still work.

Jet Black

Hard edge on a golden face. Wear Espresso Bean.

Icy Pink

Blue-based pastel; it turns your skin grey.

Dusty Mauve

Greyed and cool – the opposite of clear and warm.

Cold Burgundy

Blue-red. Your red is Golden Poppy.

Ash Slate

Neutral grey has no warmth to answer yours.

Blackened Emerald

Too dark and too cold. Your green is Grass Green.

Metals and stones

Metals: Yellow gold, Polished brass

Bright silver sits cold against golden skin. If you like a pale metal, choose a warm-toned pewter.

Stones: Citrine, Coral, Turquoise, Fire opal

Cloudy or heavily included stones look dull beside clear colouring – the stone should have some light in it.
