

WINTER

True Winter

Cool, deep and clear. Blue-based throughout, with real black and real white as working neutrals rather than as a last resort.

Also called Cool Winter.

Your white and your dark

Best white
Pure White

Best white for you. Optic white, and it is correct.

Best dark
Jet Black

Your best dark neutral – one of the few seasons for which it is.

Colours to keep away from your face

Harder next to your face – warm, golden or muted against cool deep colouring. Lower down, or as a small accent, they can still work.

Golden Camel

The warm neutral that puts yellow into your skin.

Warm Peach

Warm pastel; it fades to nothing beside your contrast.

Avocado

Yellow-green. Your green is Emerald Green Deep.

Rust Orange

Earth red. Your red is Cherry Red.

Oatmeal Beige

Golden neutral. Wear Icy Pearl.

Dusty Sage

Greyed and warm at once – the one shade to keep away from your face.

Metals and stones

Metals: Silver, White gold

Yellow gold reads brassy next to blue-based skin. Rose gold is the one warm metal that still works.

Stones: Sapphire, Emerald, Ruby, Clear quartz

Cloudy or heavily included stones look dull beside clear colouring – the stone should have some light in it.
